

January 31, 2019

Good day,

The GOBA Economic Vitality Committee has been working for the past several months on an initiative to offer broadband or enhanced internet service in the Oakland area. A portion of the project included a business survey regarding current internet speed and service. Twelve surveys were returned with the vast majority of respondents indicating satisfaction with their current internet. Although this is a very small sampling of our total membership, there is little evidence justifying private or public investment in the project at this time. If necessary, the initiative may be revived at a later date.

Sincerely,

A handwritten signature in cursive script that reads "Fred".

Fred Gregg
President , Greater Oakland Business Association
